BAND PROGRAM OVERVIEW

The Department of Education (Queensland) provides a program of free instrumental music lessons to students in years 4,5,6. All year 3 students undergo a series of musical tests to determine their suitability for the program.

Tuition is provided on brass, woodwind, bass guitar and percussion. An ensemble experience is provided for all students once they reach an appropriate level on their instrument. The Mt Cootha schools cluster, of which Oakleigh is a part, run beginner, intermediate and advanced music camps throughout the year.

AIMS AND OBJECTIVES

The Aims and Objectives of the Instrumental Music Program are:

- To musically develop students through instrumental instruction on a group basis.
- To provide ensemble experience for students, so that they can develop ensemble performance skills as an integral part of their music education, through participation in the Concert Band as soon as their skills reach an appropriate level.
- To complement the school's classroom music programs.

RECRUITMENT

Selection Criteria

Students are selected for the band program according to the following criteria

- Selmer test (60-question, multiple-choice aural test that assesses students' understanding of pitch, chords, rhythmic and melodic memory)
- Feedback from class teacher/s, music teacher, administration and Head of Curriculum
- Academic results
- Physical testing of instruments (instrument suitability)

NB – Due to set funding and time allocations, there are limited positions available in the program (~15 per year group). Students who do not receive a program offer may wish to pursue private music lessons outside school, then once at an appropriate standard, may audition for inclusion in the band program. Students who have accepted a prior offer to learn strings are not eligible for the band program.

Student Instrument Preferences

Selected students will be asked to provide 3 instrument preferences. Every effort is made to give students one of their preferences, though other factors are considered such as physical suitability, ensemble needs, instrument availability, etc.
