

Oakleigh State School Voluntary Contribution

Frequently Asked Questions

How much is the school requesting?

- \$80.00 for one student \$140.00 for two students \$190.00 for three or more students

What happens to the money? How does my child benefit?

A strong foundation of **ICT and Digital Technologies infrastructure and equipment** is essential at Oakleigh to support the great work of our staff and students as we strive to reach our STEAM vision. Equipment supporting the future-proofing of our young learners will be purchased, to ensure that our students have continued access to high quality, reliable and innovative devices and technologies.

Oakleigh has a long community history of appreciating the need for us all to act in what that contribute to **sustainable patterns of living**. We employ a Sustainability Officer (Brenda Keough) to enhance students' learning around sustainability. Brenda works with our year level teachers to plan and implement units of work that contain elements of sustainability, with all students across our school. She also works with small groups of students, taking on projects and opportunities that contribute to students' knowledge, skills and behaviours in the Australian Curriculum priority area.

How can I pay?

Payments can be made:

- Online or by phone using BPOINT
- In person by cash, cheque or money order

When should I pay?

By the end of March if possible. This allows us to budget for the rest of the year, to ensure we fully utilise all funds available.

What if I already volunteer around the school and help to raise money in other ways?

Thanks for your contribution! Keep volunteering! We would also value your payment of this Voluntary Contribution Scheme – every little bit helps.

Is it spent in the school year?

Definitely – all monies will be spent in 2018.

Do I have to pay?

No. This is a Voluntary Contribution Scheme.
